

Attorney's Docket No.: 6-001001/ D210 1066 00

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant : Barrows et al
Serial No. : 09/185,732
Filed : November 4, 1998
Title : ADHESIVE SEALANT COMPOSITION
Reissue of
Patent No. : 5,583,114
Issued : December 10, 1996

Art Unit : 1653
Examiner : J. Russel

#32
Declaration
7/9/02

Commissioner for Patents
Washington, D.C. 20231

SUPPLEMENTAL DECLARATION PURSUANT TO 37 C.F.R. 1.175

We, Thomas H. Barrows, Terry W. Lewis, Myhanh T. Truong, and Matthew T. Scholz, declare that we believe that we are the original and first inventors of the subject matter that is described and claimed in United States Patent No. 5,583,114 for which we solicit a reissue patent; that we have reviewed and understand the contents of the above identified reissue application, including its specification and claims; that we acknowledge the duty to disclose all information of which we are aware that is material to the examination of this reissue application in accordance with Title 37, Code of Federal Regulations (CFR), §1.56(a); that the aforesaid patent is partly inoperative by reason of claiming less than we had the right to claim in the patent; and that said inoperativeness is a result of error that arose inadvertently and without any deceptive intention.

The patent claims less than we had a right to claim, in that the specification of the issued patent discloses an invention that is broader than what is claimed. One error relied upon as the basis of this reissue application is that of originally filing claims directed to subject matter that was narrower than we had a right to claim. Claim 12 recites a method of sealing tissue that includes applying and bonding an adhesive composition that includes "a first aqueous mixture"

CERTIFICATE OF MAILING BY FIRST CLASS MAIL

I hereby certify under 37 CFR §1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated below and is addressed to the Commissioner for Patents, Washington, D.C. 20231.

and "a second aqueous mixture" while the specification more broadly describes compositions not limited to those with a first aqueous mixture and a second aqueous mixture. This and any and all other errors being corrected in the reissue application, as of the filing date of this declaration, including all errors that were not covered by the prior declaration submitted in this application, arose without deceptive intention on the part of the applicants.
